

# Finally

## Eamon

Wake up and I'm feelin right  
Hop out of bed and I grab a bite  
Rake up a fatty and roll it tight  
Thinking what I'm gonna do tonight  
New that she was feelin me  
And I was feeling her like ecstasy  
Next thing you know she was next to me  
By the mornin time she's sexin me  
Finally I can say  
Everything today has gone my way  
No problems, no hassles  
I've been smokin  
Finally I can say  
Everything today has gone my way  
No problems, no hassles  
I've been fuckin  
Check the mail box and I got my check  
Sit back, relax as I sip my Becks  
Think about all the shit I can get  
So I spend and spend  
Till I think I'm set  
Hit the club  
And I'm feelin nice  
Let me get the bottles in the ice  
When I come through  
You know Staton's tight  
Everyone I brought  
Gets laid tonight  
Finally I can say  
Everything today has gone my way  
No problems, no hassles  
I've been livin  
Finally I can say  
Everything today has gone my way  
No problems, no hassles  
I've been drinkin  
And so the day has come  
Just as quick, the day goes by  
I still know I gotta try

Leave the bullshit far behind

And even if that feeling's lots  
I'll make sure that it was found

On my ground

I'll be crown

Ain't goin down no

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been fuckin

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been livin

Everytime you see me I'll be smilin  
Willin with my boys on staton island

Phillies and lots of chicks

We havin fun tonight

Everytime you see me I'll be smilin  
Willin with my boys on Staton island

Phillies and lots of licks

We fucked up feelin right

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been smokin

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been drinkin

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been drinkin

Finally I can say

Everything today has gone my way

No problems, no hassles

I've been livin

Smokin, drinkin, livin, laughin, fuckin, buggin, lovin, singin, spendin, chillin
