

# Holy Mountain

## The Cult

I fell in love  
With your face  
Take down the walls  
Of this place You're a wild thing  
You say wild things  
But much too wild I think You're a wild thing  
You say wild things  
But much too wild I think And you sense the heat in my heart  
And she broke me down like a dog  
And I cried and cried  
Till I couldn't speak no more You're a wild thing  
May say wild things  
But much too wild I think Child  
Hush your mouth  
Innocence  
Please don't speak You're a wild thing  
You say wild things  
But much too wild I think You're a wild thing  
And everything you say wild things  
But much too wild I think
