

Disaster Blaster

White Zombie

Conquest heated master
Skin crack move faster
Doom watch got open eyes
Perversion never lies
Disaster blaster
Disaster blaster
Creature of destruction
Laughing dead corruption
Challenge to survive
Love butcher alive
Disaster blaster
Disaster blaster
Take a journey into fear
Demon warp invasion
Thunder wheels rolling
Crush a 1000 faces
Sworn to fun and loyal to none
When the beast is clever
The best it ain't over
Walk alone on borrowed time
And kiss tomorrow goodbye
Sworn to fun and loyal to none
Lost inside a human zoo
Edge of life wants you
Got a grip on the wire
But my brain don't get no higher
Disaster blaster
Disaster blaster
Leather skin move to the beat
Beast man insulated heat
Looking for a sleeping dream
Hop head body scream
In the morning
Ready to learn
What's happening
And who's gonna burn?
Get on your feet
Time to die
On the floor

Machines don't die
Stealing the world
Walking away
Poison mind
Every day
