

# Burn That Candle

Emmylou Harris

Keep that candle burnin' bright, mama  
I'll be kind of late tonight, mama  
There's a yellow moon above me, mama  
Shinin' on the one I love, mama Burn that candle night and day  
Burn that candle, honey, light our way  
Keep that doorway open wide  
Until we come slowly strollin' side by side While that candle's shinin' high, mama  
I'll be with my sugar pie, mama  
We'll be comin' home you know, mama  
Lookin' for that candle glowin', mama Burn that candle night and day  
Burn that candle, honey, light our way  
Keep that doorway open wide  
Until we come slowly strollin' side by side After we have had the wedding, mama  
To that candle we'll be headin', mama  
So before we're runnin', dinin', mama  
Keep that candle light a-shinin', mama Burn that candle night and day  
Burn that candle, honey, light our way  
Keep that doorway open wide  
Until we come slowly strollin' side by side Burn that candle night and day  
Burn that candle, honey, light our way  
Keep that doorway open wide  
Until we come slowly strollin' side by side
