Arclight (2009)

Deathstars

It ticks fast (tick tock doom)
Lithium fills this whole room
It's flooded there in front of us
It's close to usLet it fight (win win loss)
A prostitute waits for the thrust
A starlet yearns for death and lust
She is one of usI will never never forgive
Never ever forgive
Arclight
And the living will see
Arclight
How their death will beLook at the past (it's tip top black)
A burnt life behind your own back
It will never let you go there alone
It's your flesh and boneHere it comes (take it - bang!)
Stuck with your neck in its fang
It's a copy of human dust
It's sure one with usI will never never forgive
Never ever forgive
Arclight
And the living will see
Arclight
How their death will beAll the lives I have lived
Will die now
And the stars lost their grace
It's sulphur mixed with rainDig down your heart?Dig down your heart in this soil
Dig it down next to me
Feed the flames so the serpents uncoil
And let the arclight free
