Damn Good Friends

(Verse 1)
Thought Id
Slide past the walls of your heart like
Youre from the fly taking my time
Before revealing my
True intention
But youre so impossible to suggest
When
You like us just the way we is
Please pardon me for my interjection
([Chorus]
I long for you
It kills me to pretend
Im not in love when I just am
But you dont understand
That were such
Damn good friends
We could be a whole lot more [2x]
But were such damn good friends(Verse 2)
Two puzzles
Identical with the same piece
Missing from both never complete
Never achieving our
True perfection
So why both scour the earth for the missed piece
Maybe the piece is in our kiss
Maybe the answers in my direction
([Chorus]
I long for you
It kills me to pretend
Im not in love when I just am
But you dont understand

That were such
Damn good friends
We could be a whole lot more [2x]
But were such damn good friends
