Go Centipede

Giles

Twin centipede claiming all territory...
It's the same story when theres no glory
Overcoming the whole human race
No army can move him out of his place
Twin centipede behold his fire art...
Hos looks will tear us apart[he will stomp you]Dont look him in the eye...for his beam of cedar rails track any human movement
Just dacen away from him, centipede cant keep this beatHes dancin'!
Go centipede, go centipede
