

Slaves

Bad Religion

[Incomprehensible] threaten your freedom
We've done without for 20 years, so think if we really need 'em
We're all just slaves for the troop commanders
We're all slaves for the troop commanders
We're all just slaves for the troop commanders
We're slaves
Can blow up things better than in any country except this one
Waiting for it too then you realize it ain't too much fun
We're in a country, democracy, supposed to be the best on the globe
Living, trying to break you for a lesson for the high class clones
And we're all just slaves for the troop commanders
We're all just slaves for the troop commanders
We're all just slaves for the troop commanders
We're slaves
Now we're all just slaves for the troop commanders
We're slaves
Let's cut it
