

The Corner

DukeDaGod

First time I left home
Here's the words that my dad said to me
 He said sit down son
 Don't take curves
 Doin' 90 miles an hour
 Or you will end up upside down
 If you really like her
 Don't forget the flowers
The first time and every time you take her out
 I've been around the block
 And I know what's 'round the corner
 Choose your words wisely
 Cause you can't take 'em back
Once they've broken someone's heart
 Just because your friend does
 Doesn't mean you have to
 It's what sets the two of you apart
 I've been around the block
And I know what's 'round the corner
 Don't pretend to know it all
 When you don't know a thing

 And know your way around it
Before you throw your hat into the rain
 And don't commit to somethin'
 If you can't follow through
And your past will always catch up with you
 I've been around the block
 And I know what's 'round the corner
 Always call your mama
 When you say you gonna
 While she's still here for you to call
 And don't forget the man upstairs
 In your darkest hour
He's a pick me up every time you fall
 I've been around the block
 And I know what's 'round the corner
 I've been around the block
 And I know what's 'round the corner

I'm in your corner
I've been around the block
Enough to know what's 'round the corner
What's around the corner [x2]
