That Kiss

Tiffany Alvord

You and me we used to be friends,
Nothing more and nothing less
You and me we used to hang out,
Never ever thinking aboutMore than you and more than me,
A growing love that we didn't seeUntil this kiss,
That was more than this
It was more than us just being friends
This kiss was a magical thing,
My heart did fly and the angels did sing
Oh oh oh....From then on when you looked in my eyes,
It felt like I was being hypnotized
Your cute smile and your perfect hair,
Your beautiful eyes
I can't help but stare causeIts more than you and more than me,
A growing love that we didn't seeUntil that kiss,
That was more than this
It was more than us just being friends
That kiss was a magical thing,
My heart did fly and the angels did sing
Oh oh oh....Cause you mean everything to me,
And without you I don't know what I'd beCause of that kiss,
That was more than this
It was more than us just being friends
That kiss was a magical thing,
My heart did fly and the angels did sing
Oh oh oh....Cause of that kiss
