Until Forever

Eva Under Fire

One more door
One more time
One more shot just to get it right
You've gotta give it more
Or it's never gonna come true
More or they're never gonna know you

Prechorus
Hide behind the music
Let it set your soul on fire
Timelines aren't for dreamers
Make it worth walking the wire

Chorus
Never give it up never give it back this is all for you keep your heart attached tell me that we're here until forever until forever with our hearts attached

Vs 2
On the line
Choose your side
One false move
And you hit rewind
You gotta give it more
Or it's never gonna come true
More or they're never gonna know you

Bridge
And still I let the light burn on inside
Light up the night
Light up the sky
And still I let the light burn on inside
Light up the night
