Bucharest

Klezmorim

Shot in the head in a bar in Bucharest
I was just hoping to score
I was standing there broke
Laughing at some joke
When the world burst throught the door
I was dreaming of Stonehenge in '68
When I met your old dear
On a blind date
Shot in the head in a bar in Bucharest
Shot in the head in a bar in Bucharest
Shot in the head in a bar in Bucharest
I was just hoping to score
Shot in the head in a bar in Bucharest
What was the promise you made
It was 14 years since I'd shed any tears
And even longer since I got laid
And it was only then
As I was lying there
I thought I really like to change
The style of my hair
Shot in the head in a bar in Bucharest
Blood went all over the floor
There was a four piece band
The biggest in the land
I heard the crowd call out for more
It was clear to me
Anyone could tell
That they had nothing to say
But they said it so well
