

Beneath the Waves

Graham Nash

Here in the same boat
With danger from the falling sails
Trying to keep ourselves afloat
By laughing at the howling gales
Standing in the same shoes
Frightened by the same fears
How much more are you going to lose?
How much pain for how many tears? Fifty years before the mast
How long will it last
Before sinking
Beneath the waves
Beneath the waves Sharing the same space
Breathing in the same air
Thinking all the same thoughts
How to help and why to care
Living in the same world
A world that's full of love and lies
A world that really doesn't care
If we live or if we die Fifty years before the mast
How long will it last
Before sinking
Beneath the waves
Beneath the waves
Beneath the waves Rolling over [?] the weight of the water in my ears
Holding my breath, it's causing me pain for so many years
So many years Beneath the waves
Beneath the waves
Beneath the waves
