Set It Off

Rufio

One day they set it off
Blowing confusion into our minds
Some say we'll never see
The beauty within our hearts
So help us fight this war
See past your thoughts before
All taking battle scars
Well, don't you go
Things never change
Without the strength to move on
What we will be
Depends on what we believe
We'll set it off
We're starting a different life
Confessing we haven't begun to live
Leaving your past behind
You'll follow your heart
So help us fight this war
See past your thoughts before
All taking battle scars
Well, don't you go
Things never change
Without the strength to move on
What we will be
Depends on what we believe
What will we do when all is gone?
And what will we say?
Will we ever learn?
What will we do when all is gone?
And what will we say?
No, we'll never learn
What will we do when all is gone?
And what will we say?
Will we ever learn?
What will we do when all is gone?
And what will we say?
No, we'll never learn
Things never change
Without the strength to move on

What we will be
Depends on what we believe
