

The 2nd Law: Unsustainable

Muse

All natural and technological processes
Proceed in such a way that the availability
Of the remaining energy decreases
In all energy exchanges, if no energy
Enters or leaves an isolated system
The entropy of that system increases
Energy continuously flows from being
Concentrated to becoming dispersed
Spread out, wasted and useless
New energy cannot be created and high grade
Energy is being destroyed
An economy based on endless growth is
UnsustainableUnsu
Unsustain unsustain unser
Uns' uns' unsustainer unsustainer
Unsu
Unsustain
Unsustain
Uns' uns' you're unsustainableThe fundamental laws of thermodynamics will
Place fixed limits on technological innovation
And human advancement
In an isolated system, the entropy
Can only increase
A species set on endless growth is
UnsustainableUnsu
Unsustain unsustain unser
Uns' uns' unsustainer unsustainer
Unsu
Unsustain
Unsustain
Uns' uns' you're unsustainable
