Perfect Moment

Art Garfunkel

I met you once before the first time
Cinema 1 or 2, I noticed you
Standing in line, your eyes met mine
And I could not look awayThere we were in a perfect moment
A perfect moment in time
For a moment, you were mineSo later on I knew the first time
That it would be alright for us that night
Trust in our eyes, we made a bridge of sighs
When we crossed over it was dayThere we were in a perfect moment
A perfect moment in time
For a moment, you were mineI wasn't ready for the last time
But wasn't I supposed to let you go into the blue?
But still I'm holding you
Though you're a million miles awayThere we are in a perfect moment
A perfect moment in time
For a moment, you were mineIn a perfect moment
A perfect moment in time
For a moment, you are mine
For a moment, you are mine
Just for a moment, you were mine
