Sleepy Buildings

The Gathering

Break yourself through the clouds
and build above those sleepy buildings
Mistified by your capabilities
all is yours if you can handle
Visable from higher than the sky
Plane and simple,
the facts are at your feetStones are snoring
Walls are breathing loud
Roofs are poking
Into cosmic mouthStart the artifact
and build above those sleepy buildings
Only you
know what is the absolute bestStones are snoring
Walls are breathing loud
Roofs are poking
Into cosmic mouth
