

# One Night Stand

## Magic Lanterns

Listen to the rumors fly  
If is true what I hear  
Gossip sure can hurt a guy  
Can't you see all our tears

You've been such a silly child  
Breaking all of the rules  
Playing games and running wild  
Someone else's fool

He's a regular guy  
With a regular ride  
On a one night stand  
And he gets what he can,  
When he can, Where he can  
He's a one night man

Did I force you to break this spell  
And fall into his hand  
And he knew very well  
You'd be easy as hell  
For a one night stand

Don't come running back to me  
Are you out of your mind  
One thing I will never be  
Is the second in line

I know you went out last night  
Did you had some fun  
You thought you were treated right  
By the hit and run

He's a regular guy  
With a regular ride  
On a one night stand  
And he gets what he can  
When he can, where he can  
He's a one night man

Did I force you to break this spell  
And fall into his hand  
And he knew very well  
You'd be easy as hell  
For a one night stand

He's a regular guy  
With a regular ride  
On a one night stand  
And he gets what he can  
When he can, where he can  
He's a one night man
