How Long

Saga

You thought you had it in the bag
Thought you had it all figured out
But now you're having second thoughts
You don't really know your ins from outs
You won't accept the lot you've drawn
You can't face the error of your ways
You turned your back and walked away
Seem bent on finding better days
How long did your dream carry on
How long did your dream spin around
(repeat)
You'd better grab your things and run
All your friends have left you behind
I have no answers for you now
I just wish you had an open mind
How long did your dream carry on
How long did your dream spin around
(repeat)
