Brother

Dark New Day

Once upon a time I knew everything
When I stop to think back on everything
It all runs away like a memory
Once there was a picture of a happy place
But I always keep thinking what a great place to leaveI'd trade it all
To have you all here with meFather, when you coming by?
Mother, leave the light on again
Sister with someone somewhere, somewhere
Brother, brother, brotherTrailer park heaven was a dream to me

'Cause we had it figured out

Simple and not jaded

There was a promise of a brighter day

But soon it would all fade outI'd trade it all

To have you all here with meFather, when you coming by?

Mother, leave the light on again

Sister with someone somewhere, somewhere

Brother, brother, brotherWhen it's something we love that keeps us away

Well it costs even more

And its so much to pay

To have you all here with meFather, when you coming by?

Mother, leave the light on again

Sister with someone somewhere somewhere

Brother, brother, brother Brother, brother, brother Brother, brother brother
