

Long Ride

Black Stone Cherry

Young love like a fire that can't stop burning
In a world where all these hearts are hurting
And times I wonder is it worth it baby
But I know I was wrong when I felt that lonely
Where ever you go I'll be there It's been a long ride but you've stayed by my side
It wouldn't be the same without you
It wouldn't be the same without you
There's been some long nights and sure we've had our fights
It wouldn't be the same without you
It wouldn't be the same without you
And now we're here we've got this far
There's nothing that could tear our worlds apart Ten years two rings but I don't deserve it
How did I ever get a life this perfect
Where ever I go you'll be there It's been a long ride but you've stayed by my side
It wouldn't be the same without you
It wouldn't be the same without you
There's been some long nights and sure we've had our fights
It wouldn't be the same without you
It wouldn't be the same without you
And now we're here we've got this far
There's nothing that could tear our worlds apart It's been a long ride without you by my side
It wont be the same without you
I wont be the same without you It's been a long ride without you by my side
It wont be the same without you
It wont be the same without you There's been some long nights
And lonely knows I've cried
I'll never be the same without you
I'll never be the same without you I'll never be the same without you
It wont be the same without you
I'll never be the same without you
