

# Don't Let Them See You Cry

## Manchester Orchestra

Don't let them see you cry  
When the dam breaks down  
And the city's covered in water  
'Cause I believe we fly  
When the moon takes shape  
And I dose off, on your shoulders  
And the trust you see, it's you  
So breathe while you're alive  
Let the big band play  
As you tap leather with your fingers  
And I tried to write in style  
But the words just come  
And I write them as soon as I see them  
And I trust that you write them too  
And I trust that you love me too
