

# Gun Control

## Anvil

Protect The Constitution  
Another twenty-one die  
Is it the institution?  
Are we to question why?  
Is ownerwhip essential  
For everyone to have?  
But what is your credential?  
Or have you just gone mad?  
Wounds to bleed from  
Do we need some?  
    Gun control  
    Gun control  
    Fear, anger and jealousy  
    Distortion of reality  
    Gun control  
    Gun control  
    Gun control  
    Do you defend your family?  
        Or go and rob a bank?  
    Do you defend your country?  
        For that who do we thank?  
        Do we need some?  
        Gun control  
    Gun control  
    Fear, anger, misery  
    Distortion of reality  
    Gun control  
    Are you a vigilante?  
        Gun control  
    Another sniper on a hill?  
        Gun control  
    Become a celebrity  
        Gun control  
    Of another senseless kill  
        Gun control  
    Are you a big game hunter?  
        Gun control  
    Do you hear the call?  
        Gun control  
    Does it ever make you shudder?  
        Gun control

Is it the trophy on your wall?  
Wounds to heal from  
Do we need some?  
    Gun control  
Gun controlFear, anger, insanity  
Distortion of realityGun control  
    Gun control  
    Gun control  
    Gun control  
    Gun control  
When you've got the right  
    Gun control  
    A murderous plight  
    Gun control  
When you've got the right  
    Gun control  
There is no end in sightGun control
