

Love Is Pain (Rare New York Mix)

Virgin Steele

[Music and lyrics: De Feis] I see the winter in her eyes

As I turn to go

See the pain on her face

A frozen rose With the toss of her hair

And the bite of her lip

She'll ask me so shy

"Anything left to say?" And I say

"No, no baby, not this time

Again-

This time it's over

You've got to learn" [Chorus:]

Now, darlin' love is cruel

Darlin' love is blind

Love is pain

So cry

Shed a tear today

Shed a tear my baby

Love is pain I see our love out of reach

Arms intertwined with lies

What shattered the night

Still haunts me in the rain Now you're lost child, lost

Like a ship on the storm

Your distant eyes

Are shadows of others I've known [Bridge & Chorus]

I Love you

Love is pain
