That Much Further West

Lucero

I tried, and I can't run no more
So tell Katie it's her that I adore
And as long as I love her best
I'm that much further westAnd since, since she's been gone
I've done less right than I've done wrong
I ain't that much worse than the rest
Just that much further westAnd the boys, they don't need my help
They can play these songs by themselves
Well I ain't that much worse than the rest
Just that much further westOut west the only sky is blue
So tell Katie that I'll see her soon
Til then, the thoughts that I have left
Are that much further west
