

Done With Everything, Die for Nothing

Children of Bodom

Let me break you down real easy
I know you'll have to lie
So you go and destruct the real
My god will never die

And when you find that I know new trust
Just before you mystify
I'll take a fucking shot
I got nothing left for you now

Why you wonder, why you wonder
What you know will not try
What the fuck will be asunder
Won't you just live a lie?

Be cast that I still want to
Done with me? Fuck me, just let me out
To the fact that I don't care
I never had you, I don't dare

Take me away
Any way that's not my way
I don't care, I don't care which way
Toss me aside
I won't cross, I will never judge
Done with everything, die for nothing

I'm halfway dead!

Take me away
Any way that's not my way
I don't care, I don't care which way
Toss me aside
I won't cross, I will never judge
Done with everything, die for nothing
