

# When You're Sinking

Shaye

You're crossin' over  
You think it's over now  
    Into the ocean  
I watch you push onAnd if you fall  
    And you weaken  
    Who will you call  
When you're sinking?On your adventure  
    To find your treasure lost  
    Into the distance  
I watch you push offAnd if you fall  
    And you weaken  
    Who will you call  
When you're sinking?And everything the undertow takes away  
    The tide will bring it back again  
    And every time you try to push me away  
I will bring you back againAnd if you fall  
    And you weaken  
    I'll hear you call  
When you're sinkingWhen you're sinking  
    When you're sinking  
    When you're sinking
