Advisory - the following lyrics contain explicit language:

Black people keep your heads up  
Emperor Selassie, I bless them  
Burning fire never yet stop  
Simplicity, we use to survive  
Many find it difficult because they ignorant and hype  
Simplicity, we use to survive  
Do what you doing properly, that's the way through life  
Simplicity we use to survive  
Many find it difficult because they ignorant and hard  
Simplicity we use to survive  
Children, open up your eyes  
Is not the one bag of vanity  
Nor the animosity  
Nor the hypocrisy, nor democracy  
Is not the labba-labba nor the back-stabber  
Nor the vampire evilous desire  
Is just a meditation of my heart  
Pure and conscious thought  
Be over standing and be smart  
Listen to the children speak the word  
And shine the light in the dark, yeah  
Simplicity, me use to survive  
Many find it difficult because they ignorant and die  
Simplicity, me use to survive  
Do what you doing properly, that's the way through life  
Simplicity I use to survive  
Children, open up your eyes  
Simplicity me use to survive  
Burn Pharisees and Scribes  
Ooh, yeah, ah, find yuh wrong bro, dat fi pause  
Praise Ras Tafari and give a worthy cause  
Give us all the blessing, give us all reward  
To help the poor, ah, find it easy when them find it hard  
Simplicity, I use to survive  
Many find it difficult because they ignorant and die  
Simplicity, I use to survive  
I say live and love yuh life  
Keep doing what you doing, don't you grumble  
Seed what you sow is what yuh reap, so be humble  
Know what yuh doing, yuh never stumble  
Burn down Rome, I sight dem crumble  
Lead the way, lead the way with the word what I speak  
Never must you stray, hail the King in the East

Whoa, uh, Kalonji teach, Zion haffi reach, whoa yeah  
Simplicity, I use to survive  
Many find it difficult because they ignorant and hype  
Simplicity, I use to survive  
Burn Pharisees and Scribes  
Simplicity, I use to survive  
Many find it difficult because they ignorant and hype  
Simplicity, I use to survive  
Aw, Kalonji tell yuh  
Is not the one bag of vanity  
Nor the animosity  
Nor the hypocrisy nor democracy  
Is not the labba-labba nor the back-stabber

Is just a meditation of my heart  
Is just a pure and conscious thought  
Be overstanding, ah, tell yuh to be smart
