

Lovely

Breathe Carolina

Oh no, my heart is gettin' heavy,
Was I forward?

I kinda had the feeling that it's over,
But know I know that I'm crazy.
(I think that I'm going nowhere)

So scream loud and look at me way down,
I know that you're afraid,
I'll hold you close and never, ever let you go.

(Chorus)

Up and Down,
You spin me around.
You got everybody watchin as you hit the ground.
So take a step back,
You know I'm there.

Oh God can you save me now?
Enough Vallium to fill this room.
It's kinda hard when I'm dead right?
It's kinda hard when I'm dead...
Oh love, you got me crazy feelin'

Like it's nothin', that I could've wanted.
Take it slowly, and maybe you'll know I'm ready.
(I think that I'm goin' nowhere)

We can get over it.

Scenery is nothin' more than poetry.
Hotter than two lovers cumming next to me

I know

(Chorus)

Why Are You Leaving?

Please Don't Go.

Stay With Me

Come On Breathe

You Gotta Find A Way

You and I got our whole lives ahead of us oh.
We turned you- Can We turn you on?
I hope heaven needs you more than I need you now
you know I love you
(I can't believe it's you)
