The Inevitable Relapse

Filter

When I wake up, I can't stay up
There's no time for hope
Mr. Hung out Mr. Torn up
Looking for the phone
I'll give you something that you're waiting to see
I'll give you something that would set you free
[Chorus]Drink it, drink it, snort it, smoke it
Every little thing I love about it
Drink it, drink it, snort it, smoke it
yeaaaah
[repeat]
Got it crushed up, got it blown up
Suck it through the straw
Love is murder, love is further
Anekatips further down the hole
I'll give you something that you're waiting to see
I'll give you something that would set you free
[Chorus]Drink it, drink it, snort it, smoke it
Every little thing I love about it
Drink it, drink it, snort it, smoke it
yeaaaah
[repeat]
