Always Feel This Way

Tristan Prettyman

oh no don't you come at me
with that look you've got so down
you got me floating like a bubble
ever since you came aroundand even strangers seem to notice
and all my friends can tell
to keep you coming i'll just keep on running
but your loving tripped me and i felli hope i always, always feel this way
always feel this waypushing my buttons like we're on the elevator
keeping your eyes on this, savin it for later
we never rushed, we always took our time
you make sure to make me yours, i'll make sure to make you minenow we'll always, always feel this way
always feel this way'cause you got what i want, baby, yes you do
you've got what i need, oh you know it's true
baby i don't wanna settle for no other
can't you see all you need is me
to always feel this wayso if you're wishing on the stars
you gotta go out and get it
'cause if you want it bad enough you won't stop until you have it
don't let them tell you what you can and cannot do
you've got to see it through like you always dofeel this way
always feel this way
never gonna change
always feel this way
