

Stress Reliever

Ne-yo

I could be tired, but she wake me up with it
I could be busy, I make time to go get it
We could be beating, thats when she starts to flirt
Looking at me, talking bout, daddy bring me my desert[Chorus]
She knows what she doing
She knows what that does
Everytime she do it, set it off, no matter what, oh, oh
She knows what she doing
She knows what I love
Everytime she do it, set it off, no matter what, oh, oh
She set it off no matter whatShe tells me things like,
Things like Im her favorite flavor
And theres not a lollipop, that could ever compare ya
ooh, stress reliever, service to her king
She say daddy feed me,
And I know just what she mean, uh, whoa[Chorus] x 2
She knows what she doing
She knows what that does
Everytime she do it, set it off, no matter what, oh, oh
She knows what she doing
She knows what I love
Everytime she do it, set it off, no matter what, oh, oh
She set it off no matter what.
