

Without You Now (Stripped & Unplugged)

[Jon McLaughlin](#)

These days I leave the lights on
and the front door open when I sleep
I wake up with the night before
lingering between my teeth I answer to no one
you're gone and I am free and I know I can't live without you now
I'm just looking for what we already found
so maybe I'll say I'm sorry
save me from the heartache
I know I can't live without you now I buy the kinds of clothes now
that you always said you did not like
and I've been hanging with this other girl
let's just say she's not your type Oh it's a lie that I'm living out
and the truth's just sinking in and I know I can't live without you now
I'm just looking for what we already found
so maybe I'll say I'm sorry
save me from the heartache
I know I can't live without you now think it over... we could be lovers... again and I know I can't live without
you now
I'm just looking for what we already found
so maybe I'll say I'm sorry
save me from the heartache
I know I can't live without you now
[x2]
