I Love You

Little Mix

Oh oh here I go again baby, baby
I hear you name and its like I'm breaking
You still got that power hanging over me
Is oh is over that still happening
Oh here I go again baby babyI just wanna scream out till my voice break
Even if the tears fall and my heart hates me
baby I love youOh oh don't know how I'm still breathing, breathing
I got this hole up in my heart baby, baby
And it doesn't matter when no one say
Even know its broken i love you anywayOh oh here i go again baby, baby (my baby)I just wanna scream out till my voice breaks
Even if the tears fall and my heart hates me
I just wanna know I can save me
Even if this three words shocking, take me
Baby I love youI feel your touch when im alone
Uh oh but its just me just holding tight
In this life don't feel like you
Theres nothing left but this, I love youI just wanna scream out till my voice breaks
Even if the tears fall and my heart hates me
I just wanna know I can save me
Even if this three words shocking, take me
Baby I love youUh uh
Uh uh
I love you
Baby i love you
Uh uh, uh uh
I love you
Baby I love you
