

Bones

Male Bonding

Feelings left inside
Won't get out aliveYou feel like
I feel like you spoke in my mind
You can't understand
My feelings
Shall I do
But all I kept waiting for
Waiting for you
Your friends last night
I won't be aliveYou find out
I find out
Every nightForget those dreams
And no one has to see
Just memories turning
And burning insideChorus 2X
Truth will flash and flood before
To side
To wait no more
You'll see time
You'll see in timeI will be defined
Defined in forever
I can be your feelings and keep you together
I will be around and see you in DecemberI can't even feel like it
And I won't even feel like itBe careful of what you dream about
Let's not always wait things out
Not always wait things out
