Good for Me

Ginny Blackmore

If you wanna see it
You gotta believe it
And you gotta lick it
Before you can stick itYou know you'll never touch it
Unless you choose to go near itI love it when you're in my head
I'm in your town
I wanna get in your car
And you can drive me aroundAnd if you use it
You'd better not lose it
And if you're going nowhere
I hope that you get thereI love it when you're in my head
Making your sound
I wanna get in your car
Why won't you drive me aroundYou're kinda dirty but you're beautiful
You're kinda pretty when you wanna be
You say you love me with a bellyful
Oh oh uh oh oh - you're kinda good for meIf you never sweat it
You're not gonna get it
And if you wanna feel it
You have 2 be near it
If you don't wanna listen
You don't know what you'll be missing
I love it when you're in my head
Hanging around
I wanna get in your car
You can put your foot downYou're kinda dirty but you're beautiful
You're kinda pretty when you wanna be
You say you love me with a bellyful
Oh oh uh oh oh - you're kinda good for meYou gotta me all - in
You gotta me fall - out
You gotta me fall - in
You gotta me tuned - in
You gotta me tuned - out
You gotta me freak - in
You gotta me freak - outYou're kinda dirty but you're beautiful
You're kinda pretty when you wanna be
You say you love me with a bellyful
Oh oh uh oh oh - you're kinda good for meYou're kinda dirty but you're beautiful
You're kinda pretty when you wanna be

You say you love me with a bellyful
Oh oh uh oh oh - you're kinda good for meI love it when you're in my head
I'm in your town
I wanna get in your car
You can put your foot down
