

# Too Late

**Bobby Flores**

My mother said when she got so concerned,  
Don't play with fire and you'll never get burned.  
Don't touch the flame and you'll never find out  
My momma said that's what love's all about.

Chorus:

But it's too late  
I've made up my mind  
Love always shows when there's eyes it can blind  
Too late  
Something I've learned  
Love lights the flame when there's hearts it can burn  
My momma said when you can't find a friend  
Don't get too close cause you know it may end

Don't get too deep cause you know you'll regret  
Heartache and pain - in love that's what you get

(Chorus)

(Instrumental)

This is dedicated baby  
What more can I say  
I won't love you more than I love you today  
And I won't love you less  
But I've made my mistakes  
Stay away from love dear,  
If that's what it takes.

(Chorus)

Too late, too late, love always shows when there's hearts it can break.
