

# The Vulture

## Pendulum

It's the rise of the vulture  
I feel the panic  
All those who are nervous,  
We've lost the dynamic  
Your bloods been poisoned  
When your high as a tower  
Hear the sound of the war drums  
We're taking the power!

(We're taking your power)  
We're taking the power!  
(we're taking your power)

It's the rise of the vulture  
Gotta' keep on climbing  
No chance to escape  
No use in hiding  
You see the eye of the storm  
With a silver lining  
To the point where it breaks  
Gotta' keep on grinding

(We're taking your power)  
We're taking the power!  
(We're taking your power)

Under force, under pressure  
Under force, under pressure

We're taking the power!  
(We're taking your power)  
We're taking the power!  
(We're taking your power)

We're taking the power!  
(We're taking your power)  
We're taking the power!  
(We're taking your power)
