Lost

Dido

However long Im under makes no difference
However long Im down therell be air for me
All Ive had thats lost thats gone it falls away
Ill come up in my time therell be no fear for me
I walk down this easy path where shadows fall behind
And rest beneath the trees and wait for meLosts where I belong, losts where Ive gone
Lost is my new home, losts where I belongUsually darkness gets to me this place is mine
No idea what led me to more peace than home
Dressed in blue she takes me through no doubt for me
To follow right behind the sun is blind and I cant seeLosts where I belong, losts where Ive gone
Lost is my new home, losts where I belongLost's where I belong, lost where Ive gone
Lost is my new home, lost where I belongI can walk, with no end, nothing hurts, nothings pain
Nothings missed, no ones gone, moved away, nothings wrong.Lost where I belong, lost where Ive gone
