Come With Me

Zwan

Come with me
All you need is something I'll believe
Flashlights in the hall but no call
'Cause when my day is done I find where I belong
Waiting on the curb for you to come to carry on
It won't be long, we'll turn around
I care enough to wake you up
To make us mine, I'll make you shine
Stay the night, stay all your life
Just come with me, come with me
Won't you come with me? Come with me again
Come with me
(Stay the night)
Won't you come with me
(Stay all your life)
Come with me again
(Just come with me)
Fell so high I broke my jaw, I couldn't talk to you
Went underground to play around, it's true
But I came back to get you at that place so I could breathe
It's 3 a.m. and I'm up again, answering the call of all
The flowers by the bed make me wish my head
Was lying and possessed by truth alone, a certain home
A wooden gate, a rabbit hole
We'll turn around it won't be long
Capture that place, won't it be fun
Come with me
(Stay the night)
Won't you come with me?
(Stay all your life)
Come with me again
(Just come with me)
Come with me
(Stay the night)
Won't you come with me?
(Stay all your life)
Come with me again
(Just come with me)
She means more to me than any living thing

Younger than the blush of spring she sings
(Stay the night)
Won't you come with me?
(Stay all your life)
Come with me again
(Just come with me)
