

# One Car Garage

Emarosa

I don't mind where you're going  
The remedy, remedie's the same  
I don't mind  
Now you know me  
The remedy, remedie's the same  
If you hurt  
I'm sorry  
But that's what I've been through  
And I'm lonely  
Cus' I need you  
I need you  
To help me through it  
I'm sorry  
Here, I find what it takes to be alive  
And I'm feeling like I'm high enough, but I'm not quite sure that I am feeling up for it  
I won't be home for the same  
You love but I love but you say not enough  
That I gotta go  
Looking at myself  
But I don't see him anymore  
If you're hurt  
I'm sorry  
But that's what I've been through  
And I'm lonely cus' I need you  
I need you  
To help me through it  
I'm sorry  
Unlock the door for you to help me through  
Unlock the door for you to help me through  
If you're hurt  
I'm sorry  
But that's what I've been through  
And I'm lonely cus' i need you  
I need you to help me through it  
I'm sorry
