## dEUS

Would you go outside  
I asked you to leave  
I had enough of this ruckus  
I wanna sleep  
You say you're feeling lonely  
I got to agree  
I feel it coming slowly  
Slowly to me Here comes, here comes the night train Making a point in conversations  
That I'll never hold  
Protect myself from the rumours  
That I will never be told  
Choking on beauty  
I usually don't even see  
I'm living life through someone else  
Looking at me Here comes, here comes the night train Now all the evil thing I done  
And all the harm I ever did  
Stand right before me  
Eyes wide open  
Where were they hidden?  
I'm gonna rip it up  
Bring it down  
Send it to hell  
Somebody teach me something new  
Somebody as guilty as me  
Can break this spell Here comes, here comes the night train (Make it stop, oh I can't make it stop it's on  
again) Get up  
Put up  
Open your eyes  
Let the black blooded vein  
Come to your brain  
Angels round here don't sing  
They have a curse upon me  
The shame  
The lovers  
The tricks  
The blessings  
The rebound  
The future  
Is used

It feels like you used it up  
I look at you  
I pity you  
I dream of you  
What are you?  
Drop a name  
Leave it there  
Bruise a heart  
Leave it there  
Pay the entrance  
Leave it there  
Get some style  
Cut your hair  
Shouldn't be this  
Shouldn't be that  
Take the heat  
Take a free kick, man  
Try to get a grip on these times  
Cause the harder that I chase  
The harder you're running  
You don't have to be  
Impatient for something that ain't come
