

Land of the Living

Roo Panes

Well, it's up in the mornin', everybody off and runnin'
Everybody got some place to be
Some people never go walkin', some people just stop talkin'
And I was slippin' away, you came and pulled me through, baby
I wanna stay in the land of the living with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living with you
I wanna stay here with you
You know we work and we worry, this old world's in such a hurry
So many things we just don't see
Some people always cryin', some people just stop tryin'
And I was slippin' away, you came and pulled me through
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
We got to do what we can now, about all this pain and sorrow
We got to live just a little, we could all be gone tomorrow
When I look at you girl, my heart rejoices
You taught me somethin', considering the choices
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
I wanna stay in the land of the living
I wanna stay here with you
