Long Wait

Dusky

Step by step we walk alone,
step by step we find out way home
too long my head's tired
too long, you've found a place to hidereach inside and pull you out
take you down pay or tomb
play along it's about time
realise there's no way out
cut it out, cut it out
opened up and left to bleed out
cut it out leave it out
yourself and let me breathe out
cut it out just cut it out
bring back the silence of you
just say less again
just say less again
reach inside and pull you out
take you down pay or tomb
play along it's about time
cut it out cut it out
realise there's no way out
cut it out leave it out
yourself and let me breathe out
cut it out just cut it out
bring back the silence of you
just say less again
just say less again
