

# One Way Ticket

Mama Cass

Call the village band out, bid me good bye  
Everybody stand outside and cry  
Never thought so many, thought me so dear  
I'd be happy any place but here One way ticket, take me anywhere  
North bound, south bound, I don't even care  
I know the grass is greener there People in the city leave you alone  
Everyday is pretty much your own  
One among the many, year after year  
I'd be happy any place but here One way ticket, take me any where  
North bound, south bound, I don't even care  
I know the grass is greener there Look over the passing train and there I am  
No matter where I am, I'm passing through One way ticket, take me anywhere  
North bound, south bound, I don't even care  
I know the grass is greener there One way ticket, take me any where  
One way ticket, take me any where
