Tell Me How Long

Caro Emerald

He kinda looks a little ordinary
But I know he's kinda shy
A little work and I think that i
Could easily change his mind
Give him a wink romantically
A thought to break him down
Go ahead and act real cool cause it wont be long now
(Chorus)
Tell me how long
Until you say you love me
Tell me how long until you say your mine
Call me morning noon or nite
I'll make it rain or shine
Tell me how long until you say your mine
I really like the differences
You bring when you arrive
You didn't tell your wife you're here
And baby that's alright
It'll be our secret
Keep it under lock and key
And when you say you miss her
You're really missing me
(Chorus)
Tell me how long
Until you say you love me
Tell me how long until you say your mine
Call me morning noon or nite
I'll make it rain or shine
Tell me how long until you say your mine
A one nite affair
Could last longer if you dare
Just me over here
And you over there
Hey mister tell me are you scared
Cause you keep looking at me over there (over there)
(Chorus)
Tell me how long
Until you say you love me
Tell me how long until you say your mine

Call me morning noon or nite
I'll make it rain or shine
Tell me how long until you say your mine
