Puller

Dragpipe

So what I know
What if I go
Like it I'll be
In stone you'll seeIn time I'll find
No one like me
In doubt to be
You're not like meYou're not like me
You're not gonna make it
You're not like me
You're not gonna take itYou're not so right
Steel feel night crushFeels so good
Lie away with me
Feels so good and aliveThe night, the fight
The calling, the light
The drugs, the sight
The falling, the biteThe right, the wrong
I love this song
I never realized
That I'd live this longYou're not like me
You're not gonna make it
You're not like me
You're not gonna take itFeels so good lie away with me
Feels so good and alive
Feels so good lie away with me
Feels so good and aliveFeels so good lie away with me
Feels so good and alive
Feels so good lie away with me
Feels so good and alive
