

Music 4 the Young & Foolish

Ben Lee

I can never leave you waiting
Ive never been so close
Theres nothing that we need to save here
So just let it go
And take me over
Then leave me broken
'cause this is music
4 the young and foolishSpillin every thing in the dark, now
You can have it all
But we can build it up to the stars
Just to watch it fall
So take me over
Then leave me broken
'cause this is music
4 the young and foolishDont wanna live underwater
Dont wanna drown in the sun
Just wanna cry on your shoulder
Until the tidal wave comes(x2)Seeking for a secret craving
Headlights on a sign
I might have to walk away from you babe
To make you mine
