Everyday

B4-4

Now that you're right in front of me
There's something that I would
Like to say to you
I made up my mind
And if you feel the same
I swear that I will be there everyday
((chorus))
Everyday from now
Until I die
I will spend my life with you
I can only pray
That we'll stay the same
Everyday
Open your eyes and look at me
(open your eyes and look at me)
Tell me that you can see it too
'Cause I'll be complete

If you take this ring
I swear that I will love you everyday
((chorus))
We both know this world
Is always changin'
No one stayin' together
But maybe God will let us
Last forever, and ever (ever)
If I swear that I will be there everyday
And I swear that I will love you everyday
Spend my life
I'll spend my life with you baby
Until the day that I die
I swear that I will love you everyday
((chorus 2x))
