Bring Me Simple Men

Timber Timbre

Welcome back, my better brother
Shake hard and take the upper-hand
And make never be forgotten
Who here is the better man
But there's no competition, buddy
And while it doesn't need to hurt
You can keep the motor running
I'll unload into the dirtBring me simple men, free of pride
I like simple men, true and tried.Take a lesson here from Maple
Leave your swagger by the way
There's an element unstable
Let your confidence betrays
Every big shot is a hunter
Every hunter's got his prey
You can tell me 'bout my good sport
But that doesn't make me gameBring me simple men, free of pride
I like simple men, true and tried
Just a simple friend, I like simple men
Bring me simple me
